

SIGNIFICANTLY REDUCE PATHOGENS AND VIRUSES SIMILAR TO CORONAVIRUS IN YOUR HOME

Call us for more information. (508)473-6648

iWave-R

Significantly reduces a wide variety of pathogens and viruses similar to coronavirus in the breathing zone and on hard non-porous surfaces.

iWave is an air purifying device that installs into duct systems. When air passes over the iWave, ions are produced by the device. These ions reduce pathogens, allergens, particles, smoke and odors in the air, creating a healthy environment without producing any harmful byproducts.

When the ions come in contact with viruses, bacteria, or mold, they remove the hydrogen molecules – without them, the pathogens have no source of energy and will die. The ions also attach to allergens like pollen and other particles, causing them to band together until they are large enough to be caught by your ventilation system's air filter.

iWave's technology generates the same ions that nature creates with lightening, waterfalls, ocean waves, etc. Nature uses energy and shear to break apart molecules, naturally cleaning the air and producing a healthy environment. The only difference between the iWave's technology and nature is that the iWave does it without developing harmful ozone.

Evap-Fresh No Rinse Coil Cleaning

Evap-Fresh is a ready-to-use, non-abrasive, one-step cleaner and disinfectant for evaporator coils in air conditioners, HVAC cooling coils, and refrigeration equipment. It has demonstrated effectiveness against viruses on non-porous surfaces.
